

ACOUSTIC ARTWORK

A fusion of acoustics and design

ACOUSTIC ARTWORK mission

The acoustic products are made from PET felt and designed to improve room acoustics. In pursuit of this goal, creative compositions are born for the modern office where employee well-being is a priority.

PET felt properties

Sustainability

- Recycled and recyclable material;
- Feels like wool but made from plastic.

Acoustic features

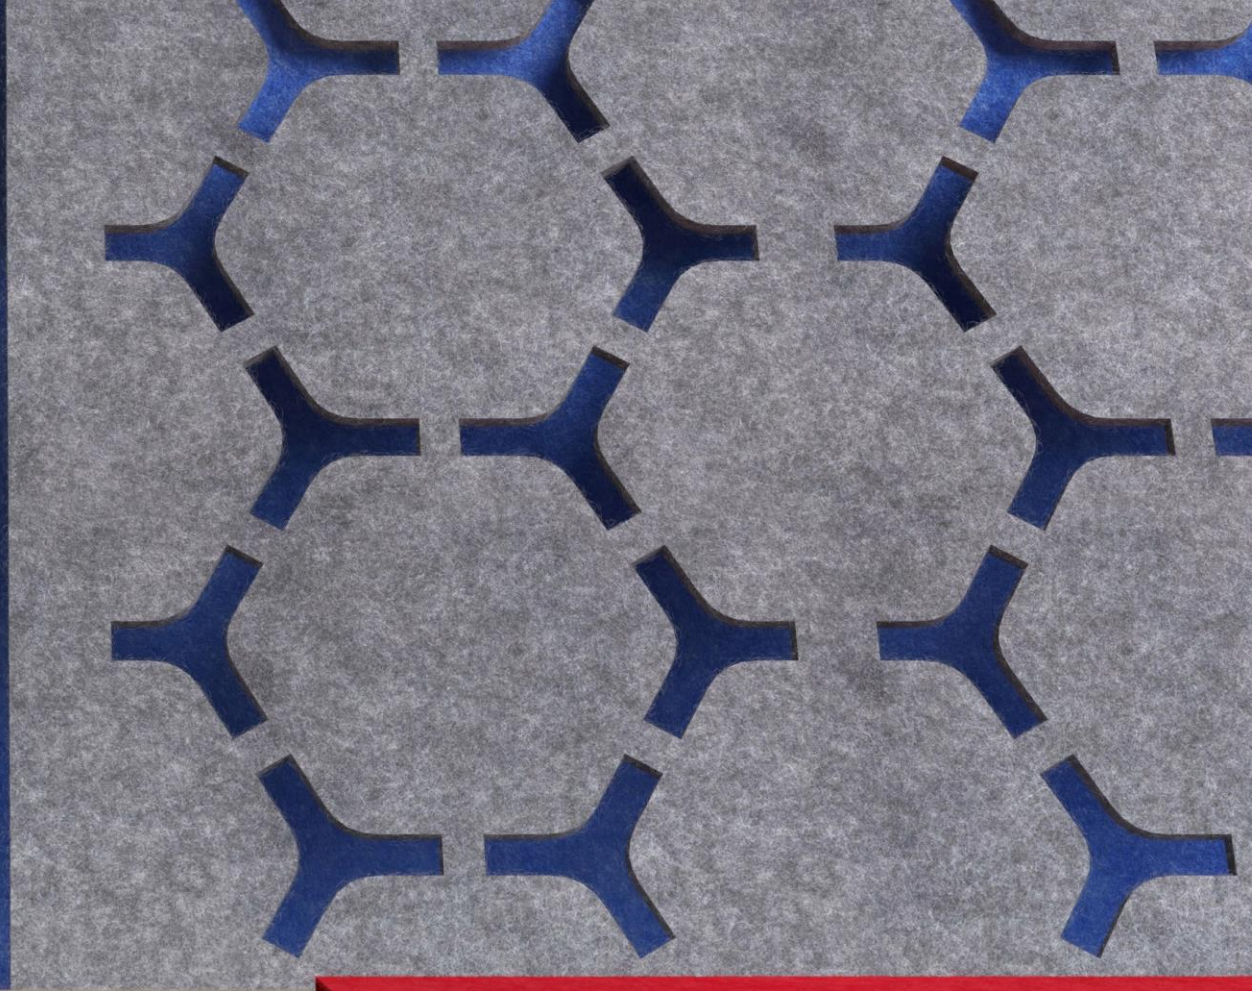

- The porous structure of the material is great for sound absorption;
- Excels at absorbing mid to high-frequency noise.

Material innovation

- Soft and light, yet strong and durable material;
- Flame retardant;
- Extremely low formaldehyde emissions and volatile organic compounds.

Safety and care

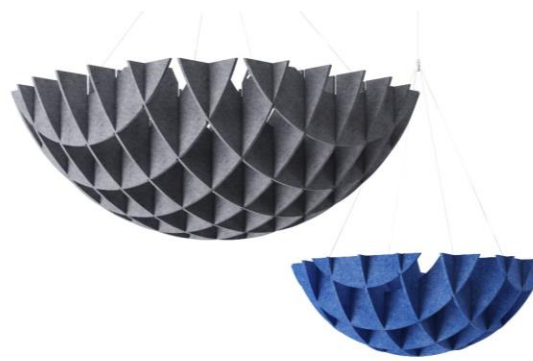

- Usually, PET felt can be easily cleaned with a generous amount of water. No rubbing!
- You can vacuum the screens occasionally to remove dust.
- Ethanol-based disinfectants can be used for disinfection and do not damage the surface or colour.
